**BIG ADDITIONS  
TO STAFFS OF  
CITY SCHOOLS****Large Number of Appointments  
for Fall Term Are Made by  
School Board****TRADES COUNCIL AND  
FAIR WAGE CONTRACT****Violation of Clause by Contractor  
for New King Edward School  
is Alleged**

One of the most important matters to come before the school board last night was a motion of the trustees to accept a large compensation that Read McDonald and Brewster, contractors for the new King Edward school, were willing to pay for the new building, and also on Saturday afternoons, in contravention of the fair wage clause adopted by the board.

Building Commissioner Turner reported that he had received the motion to accept the compensation, asking that the matter be referred, and they replied by saying that "we are not in a position to work hours that are objectionable."

Mr. Barnes: "That does not answer my question."

The building commissioners said the contractor had as many men on the job as there was room for, and they were not asked to work overtime shifts.

They had the largest gang of laborers and carpenters on the job that he had seen during this summer.

Secretary-General: "They have been very strenuous about it."

Mr. Craig said it was not the intention of the school board that the workers should work more than nine hours per day, when the union met on other jobs.

Mr. J. M. McLean and W. V. McKenzie, who should not be given a free ride, were asked to do it, and both members vigorously denied that they had understood the fair wage clause to work in this way they would not have voted for it.

Eventually, on the motion of Mr. Barnes, it was decided to refer the whole matter to the board for a report.

**McKenzie's Appointees.**

The resignations of the following teachers were accepted: Miss Agnes McLean, Miss Edward extension school; Miss Ella Slaney, McLean school; Miss Mayne, Bellair Oliver school; Miss Elizabeth Collins, McLean school; Miss Hilda, Bowler, McLean school.

The Misses Della W. Dewar, Bertha Helens and Jessie Porter were granted leave to go to Europe during the fall term.

The following regulars, already pre-arranged to be appointed, received regular appointments: Misses Margaret, First certificate, infant school; Miss Mary G. Latham, First certificate, infant school; Miss Elizabeth Morrison, First certificate, second standing; Miss N. L. Campbell, Second certificate, second standing; Miss Evelyn Cooke, First certificate, initial standing.

**BIG ATTENDANCE  
AT CALGARY FAIR****Fully Million Dollars Worth of Cattle  
Shown in the Live Stock  
Parade.**

By Bulletin Leased Wire.  
Calgary, July 3.—The attendance at the cattle parade was about ten per cent. in excess of last year's crowd. The live stock exhibit in the feature of the fair was the most popular, and it is estimated that fully a million dollars worth of live stock were shown in the cattle parade of today. The government display of milk cows is particularly fine.

"The 100,000 people who attended the fair tonight, one of the features being the burning of a house and a spectacular ride by the fire department, the affair being staged in front of the grand stand. The house was filled with most spectacular material and the effect was most spectacular.

**HEAVY SENTENCES  
ARE PASSED ON  
SUFFRAGETTES****Two Militants Convicted of Start-  
ing \$70,000 Fire Get Three  
Years' Imprisonment**

By Bulletin Leased Wire.  
London, July 2.—Two militant suffragettes, Kitti Marden and Clara Elizabeth Given were sentenced at the assizes today to three years' penal servitude each on the charge of starting a fire to the station of the Great Western Railway.

Both defendants were charged with arson and with causing damage amounting to \$70,000.

When the verdict of guilty was brought in Miss Marden said: "We have been charged with criminal damage, but we have been set free on the charge of arson."

Miss Given said: "We have been tried by our peers. Women never will receive justice until we are as well as men are on justice."

With the sentence of three years' sentence, suffragettes in the gallery of the court shouted "No Surrender."

The first defendant, Kitti Marden, was spoken by Mr. Hooper, who had charge of the boat. Mr. Hooper had then turned the boat nose to stern and had the boat listing to the right. The blow was struck full on the right hand side.

Immediately water began to pour into the boat and she sank in her side. In a very few seconds the boat had shot out into the middle of the stream and was taken to the shore by the fire department.

The boat was beached and the men who had charge of the boat were seen to be swimming in the boat, while the water was rising in the boat.

Then commenced to sift off some of their clothes. When the water was up to the waist, it was said to witness you swim, while preparing to leave the boat.

A moment later the boat dived over the head of the men in the boat and soon disappeared beneath the water.

Mr. Hooper, chief of the fire department, said that he had been swimming in the boat when he saw the boat go down and killed one man at the rate of more than twelve a day.

**Battledore Mayor Resigns.**

Battledore, July 2.—Major C. H. Bell, having gained important political experience as a member of the council, resigned a few days before and Monday next is the date for nominations to fill the vacancy. The election will be held on Tuesday.

No nominations were called by the fire department and the prisoners did not testify. Their counsel argued that the charge had not been proved.

**Montreal Mayor Resigned.**

The resignations of the following teachers were accepted: Miss Agnes McLean, Miss Edward extension school; Miss Ella Slaney, McLean school; Miss Mayne, Bellair Oliver school; Miss Elizabeth Collins, McLean school; Miss Hilda, Bowler, McLean school.

The Misses Della W. Dewar, Bertha Helens and Jessie Porter were granted leave to go to Europe during the fall term.

## BIG INDUSTRY IS CREATED BY SEWER WORK

Wien Bros. Employ 225 Men In  
Plant Where Sewer Pipe  
Is Made

HAVE CONTRACT WITH  
CITY FOR \$1,500,000.00

Narrow-Gauge Railway, 5 Miles  
in Length Is Operated in  
Plant

With capital to the extent of \$45,000 invested in the undertaking, a present working force of 125 men, which will be increased within the next month to 225, is engaged in the manufacture of sewer pipe and cast iron, the considerable field of employment that the operation opens to workers in the plant will have a decided and far-reaching influence on the city, and it is to be hoped that they will meet the needs of the city in the best interest of their enterprise. They certainly deserve well of the city, for it is no secret that when the present sewer system was being planned, it was beginning to make itself felt, and difficulty was anticipated in raising money to meet the cost of the work. The improvement for the current year, however, has so far been so great that the payments under their contracts.

CASE TELLS OF  
DROWNING ACCIDENT

Continued from Page One

clawed on the neck of the boat and I thought she would come past and I could catch her, but she went on and I was scared to stop her, so I stopped when she went until the boat came and got me off."

The other witnesses heard very well. Mrs. T. Grady, P. W. P. W., a girl 14 years of age, told the inquest that she was on the south bank of the river and when she got out of a boat on hearing the cries of the drowning girl, she saw a boy swimming beneath him. Mr. Woods stated that in his opinion the mother was swimming when she was unable to get away at the time.

The narrow-gauge train, which often runs express to the plant and to the G.T.W. yards, and eastward by way of Spruce, Namay and Altona Avenue, and Fort Street, was stopped at the plant for 15 minutes. For the hauling of trucks on this track a "permissible" engine-driver license is required. The engine must be run by the means of the materials required on all the contracts can be handled by the plant, which is in another part of the same class in new order, and, to augment the service, two additional "permissible" engine-drivers have been added.

Railroad connection is furnished by a star of the C. N. R. at Altona, and by a spur line to the plant, which connects with the G.T.W. yard, giving the contractors the benefit of direct service to both companies. On October 1st, the contractors on Columbia Avenue presented a bus and an amputated appearance. At the 10th, another bus and an amputated appearance of the concrete of which the sewer pipes are made is brought in across the C. N. R. spur line, and the contractors, after various legal surprises, and are received in very large quantity. An efficient plan for the making of the tests was adopted, and the plant is working night and day.

A permanent force of carpenters and masons is now on the job, of which the present block of the plant, in which the sewer pipes are made and are added to the concrete, is now in progress.

For convenience in handling the shafts, which are 12 feet in diameter, the sewer is laid the pipes are made in four lengths. The present plan is capable of turning out from 100 to 120 feet of sewer per day, each pipe being 2,000 feet of sewer per day. For the accommodation of the contractors, who have erected, at a cost of \$4,000 a remarkably comfortable, airy and well-ventilated kitchen and dining room. The bunkhouse, which is a lumber structure, with tiered bunks, is fully fitted with bunks containing spring mattresses, is lighted throughout by electric light, and the steam room and shower are clean and comfortable, and the contractor's kitchen and dormitory is ensured by the installation of a private sewage system connecting with the plant.

Work is carried on continuously in three shifts of eight hours each.

The contractors have brought a sufficient number of laborers to the plant, and the remainder of the laborers are being recruited locally. When the amount of work is increased, the plant will afford employment winter and summer for 225 men.

For nearly a quarter of a century the plant has been a factor in the large quantity of timber, coal, lumber, in all, it is being kept as a reserve, in case of a tie-up in connection with the lumbering of the timber. The remaining buildings at the plant will be offices, blacksmiths, garage, etc.

The sewer is laid at a depth varying from 20 to 30 feet below the surface, and is laid in a series of curves at intervals of approximately six hundred feet along the line, and from these turns continue to the surface for drainage. In many cases intermediate shafts are made so that the head of the sewer may be carried to the earth, the work thus involved that to make a long haul of dirt underground.

In order to determine to the witness of the ground or lightness of formation, the tendency to caving-in exists, the work is substantially timbered, and in the part of the work

which small trucks which are loaded underground with the materials taken from the excavation are used to haul out to the surface for drainage. In many cases intermediate shafts are made so that the head of the sewer may be carried to the earth, the work thus involved that to make a long haul of dirt underground.

In order to determine to the witness of the ground or lightness of formation, the tendency to caving-in exists, the work is substantially timbered, and in the part of the work

## JUNE MAKES RECORD AT IMMIGRATION HALL

327 Immigrants Have Been Received at Edmonton Immigration Hall in Month of June—Total in Amount of Immigration Is Shown.

It is now set a new record for June in the number of immigrants received at the Immigration Hall. The total up to date is 327 and the number received this month does not fall short of the record set in 1926 when 328 were admitted.

During the past week, 131 immigrants arrived at the hall, as compared with 131 in the previous week. The beginning of June, however, saw the highest number of immigrants received at the hall.

A large number of British, Americans and other families have been received at the hall, and in several cases they have gone out on homesteads in the country, and the majority of these are farmers and their families.

Instances of men being sent out to the country are not infrequent, and the number of timbering in the timber, but the contractors anticipate that the entries will be increased during the month of June.

FRIDAY, JULY 4, 1913.

ONE HUNDRED MILLIONS'  
WORTH OF CONFIDENCE

Sir Thomas Shaughnessy announces that the C.P.R. will expand \$100,000,000 during the current year in the betterment and extension of their railway and steamship systems.

In making this enormous outlay the company are, of course, proceeding from business and not philanthropic motives. It is not their aim particularly to provide work at a time when jobs are not so plentiful as usual, nor to afford a market to the manufacturers of materials which other importers may have less urgent.

The aim is to bring their railway and steamship equipment up to the standard they forced to be necessary to meet the growing business of the country.

Just because the company are proceeding from purely business reasons, and are known to be doing so, the influence of this must be that it will be great and beneficial. It amounts to a declaration to the world that the C.P.R. have, just as strong confidence in the future of Canada in a time of general commercial slackness as in a season of abounding activity; a declaration backed by the very convincing fact that they have invested a hundred million dollars in a year of scarce money and dear money in order to accommodate the business they see coming.

## UP THE GUM TREE.

The latest from Washington is that the countervailing duties on wheat and flour are to stand—that is that wheat and flour will remain free of duty to the United States from such countries as return the compliment to the United States.

This will be terribly disappointing to the newspaper friends of the Canadian Government. For months these gentlemen have clung frantically to the hope that the Democrats would prove themselves to be a more Canadian farmer than the British Government, and would knock off the duty against our farm products without demanding any reciprocal concession in return. A week ago when this hope seemed likely to be realized the joy of the journals and journalists in question was such that they have gathered from their hours of real or pretended jollification that they regarded trade with the United States a menace to the existence of the British Empire, and Yankee dollar paid in return for Canadian farm produce as worthy of comparison to a traitor who has been accepted by justice as far as the proof of great betrayal. On the contrary, unless they were simulating an opinion they did not share, the journalists in question sincerely believed that free entry of Canadian farm products—most especially to the United States markets—would be very much to the Canadian farmer's and did not apprehend that the farmer's getting and using this advantage would precipitate the dissolution of the British Empire.

The countervailing duty scheme, however, puts them in an awkward plight. Canada can get free entry for wheat and flour, but she can't get "free entry" for United States wheat and flour in return. That is different. Free entry for Canadian wheat to the United States markets was all right, if it could not be prevented, but free entry for United States flour to the Canadian markets is something which the Government and its newspaper friends have claimed to consider unthinkable.

dangerous and highly disloyal. Having admitted that the Canadian farmer would benefit from the free admission of his wheat to the United States, it will now be for the newspapers to explain to the farmer why they did not urge him to demand it. Moreover, to secure this benefit for him, in other words, the problem which recently sought to solve—in measure at least—is still unsolved and the Government must face either the question of accepting the partial solution offered or the demand for an explanation as to why they do not do so.

## STICKING TO BUSINESS.

A majority of the addressed men met on Wednesday evening that they do not intend to put difficulties in the way of reorganizing at the city hall by starting to play冥inal politics over matters of less importance. A proposal to censure Mayor Short because the cost engineer had in-  
vited the opposition to their duties and suggestions for improvement was voted down. His Worship also declined to answer a "frivolous" question as to whether he had been negotiating for a new superintendent of the street railway, and the verdict of the council on the refusal was not asked.

No doubt the employees in question felt themselves justified in declining to appear to "go past" their superintendents by making requests as to work and suggestions as to improvements to other or higher officials. But that in connection as to what is being done and suggestions for improvements in method are needed is generally admitted, and the desire to encourage the mayors because of the information and suggestions sought in this particular way was exaggerating a mole-hill into a mountain.

The question regarding the alleged negotiations for a street railway superintendent is one which should not have been asked. Whether the report is founded or not, it is well to have the council to the committee and its discussion could only result in placing the present head of the system in an embarrassing position. That sort of thing does not make for the smooth and proper working of the enterprise. Unless and until a superintendent is dispensed he should be treated in every respect as "top dog" on the job. Otherwise discipline is impossible, and without discipline efficiency is impossible.

With a budget of ten millions of dollars to be expended this year in the making of badly needed improvements, and the care and supervision of a group of large and costly public utilities there is plenty of room for a committee to reconstruct a committee at the city hall for both council and commissioners. In all accounts the reconstruction part of it is as badly needed as the constructive. When the council has found out how much money was spent last year in excess of the amount authorized, and what on it, it will be time enough to begin to magnify techniques with a view to the preparation of campaign speeches. The majority of the aldermen are to be congratulated for declining to side-track the important business in hand in the interests of non-essentials.

## Remarked on the Side

The discovery in Saskatchewan to be of a human skull supposed to be at least ten thousand years old, will be of interest to the scientific world, and may be the last word in the history of the human race, and did not apprehend that the farmer's getting and using this advantage would precipitate the dissolution of the British Empire.

The countervailing duty scheme, however, puts them in an awkward plight. Canada can get free entry for a time around the world, but she can't get "free entry" for United States wheat and flour in return. That is different. Free entry for Canadian wheat to the United States markets was all right, if it could not be prevented, but free entry for United States flour to the Canadian markets is something which the Government and its newspaper friends have claimed to consider unthinkable.

Alfred Landy says he wants "all the employees of the city, from the aldermen down to the humblest laborer, to be more grateful if he had been from the laborer up to the hum-blest alderman."

A WONDERFUL DAY OF FRIDAY BARGAINS  
IN "THE BAY'S" GREAT JULY CLEAR-  
ANCE AND REBUILDING SALE

Tomorrow will witness another of the wonderful economy days of our great sales. A day during which the housewife may share in offerings of seasonable merchandise at prices unheard of before. Just the things you need most—the things you have wanted and have hesitated buying on account of the price—at prices so low as to tempt the most sparing pocket-book. We haven't simply reduced the prices on Spring and Summer goods—odd and broken lots—but have reduced the prices of every thing in our great establishment. Our extensive alterations make this absolutely imperative—and don't hesitate—let the July Clearance and the Rebuilding Sale (the "Economy Twins") save you money.

## GREEKS CLAIM VICTORY OVER BULGARIANS

Greek Artillery Reported to Have Silenced the Bulgarian Guns

### CONFICTING REPORTS ARE BEING RECEIVED

Bulgarians Claim Victory—Say They Are Advancing Toward Saloniciki

Sofia, July 3.—The authorities here absolutely deny today the statements issued in Belgrade reporting the success of the Serbian troops. One official said the Bulgarians had been repulsed at the front. The Serbian troops repulsed the Serbians and captured a number of villages on the border of the districts of Kavala and Macedonia. Afterwards the Bulgarians returned to their former positions and were said to have suffered heavy losses.

Saloniciki, July 3.—The battle between the Greeks and Bulgarian troops in Macedonia has resulted in a complete victory for the Greeks, according to official reports. The Greeks are advancing, the Bulgarians are retreating, and the Greek infantry then pierced the Bulgarian lines at Dandu. The Bulgarian troops were eventually driven away from the plain of Kilkis.

**Conflicting Reports.** London, July 3.—Accounts of the fighting between the armed Balkan units in Macedonia coming from the various capitals of the nations concerned, and the Greeks are issuing circumstantial reports of the defeat of the Bulgarians, while the latter state just the reverse. The Greeks are advancing toward Saloniciki, which is in possession of the Greeks and at the same time the Serbians are said to be driving the Bulgarians along the whole line.

**London, July 3.**—War has been declared in Macedonia against the Bulgarians at Uskun, from which place King Peter and Premier Pachitch departed from Belgrade yesterday morning according to the Exchange telegraphic communications. The declaration will state that the war has been provoked by Bulgaria to declare war.

**Casualties are Heavy.** Geneva, Switzerland, July 3.—The casualties during the fighting between the Bulgarians and the Greeks and Bulgarians have been much heavier than those of the Serbians and the Greeks, according to the Serbian Red Cross Society. The Serbian secretary, writing to the Swiss Red Cross secretary, asking him to dispatch doctors and nurses to the scene of hostilities. The Bulgarians stated 3,000 wounded had already been brought from the front and that fighting continued.

### 300 Bulgarians Killed.

Bulgaria, Sofia, July 3.—Serbian reports of the fighting on Tuesday between the Bulgarians and the Serbians are to the effect that the Bulgarians suffered a severe defeat.

One thousand Bulgarian prisoners are said to have been taken by the Serbians, who had been told that the Bulgarians lost 300 dead and 1,500 wounded.

### London, May Take Hand.

Bucharest, Romania, July 3.—King Charles of Romania ordered the general mobilization of the Romanian army.

### Explains Greek Position.

London, July 3.—King Constantine, of Greece, in a statement to the British press, said that the Greek and Bulgarian troops concentrated in large numbers, delivered a sharp attack upon the Greek regiments at Amman, and after a necessary休整, advanced 15 hours, the Bulgarians seized several villages in the neighborhood of Panshikoff, where the Bulgarians were occupied by the Greek army.

"To put an end at all costs to this state of affairs, the Greek army took fresh measures of the same kind, a convention was signed on June 2 at Saloniciki between the chief of staff of the Greek army and the commander-in-chief of the Bulgarian troops in the region of Serres. This convention established that the Bulgarians were to be sent to the front to evacuate and in which neither party was to penetrate."

**Failed to Evacuate.** London, July 3.—An assessment of the Bulgarian general staff neglected to evacuate most of the points which it had promised to abandon. Belasik, the last Bulgarian town on June 2, was taken.

"In addition to this, the Bulgarian troops attacked a second time the Greek troops at Panshikoff. Finally on June 29 Gen. Hespeckhoff, in command of the Bulgarian troops, had conceded his intention of not leaving the town of Salischki. This fact left no possibility for the Greek army to penetrate the Bulgarian general staff, which had designed to keep inactive in Salischki for as long as possible an entire division of the Greek army."

### Treacherous Apparent.

"The Bulgarians, which early showed their intention of disregarding the sole command of the Bulgarian general staff, made unexpected strokes, a state of affairs which would allow them to break through the Greek and Bulgarian lines."

"This they intended to do by occupying strategic points of first class importance, such as the village of Gavchikli, for the armies at Gavchikli and by interrupting the railway communication by Salischki and Uskun, through which they hoped thus to over-

## 40,000 MIDLAND STRIKERS START MARCH ON LONDON

Will Spend Four Days in the Metropolis in Series of Demonstrations

London, July 3.—Forty thousand Midland strikers commenced yesterday a march on London. The demonstrators set out from the historic Bull Ring in Birmingham, with Emily Hobson, Mrs. J. H. Hobson, Admiral Nelson, looking on from a commanding statue of bronze.

The men were divided into three contingents and the two thousand marchers who chose to march were given. One of the leaders goes through Coventry and the other through Walsall, and the third will join force at Barnet and march into the metropolis, their objective point being Trafalgar Square and the Norden column.

They therefore march with the historic names of their great ancestors and all their traditions. The first four days are to be spent in London, during which period special meetings of the strikers will be addressed by the leaders of the labor party in Parliament and others.

## BUSH FIRE PERIL IN COBALT NOW IS PAST

Rains Have Quenched Fires—Little Damage Done in Northern Ontario—First Reports Were Grossly Exaggerated.

Cobalt, Ont., July 3.—Rains have not yet come to the bush fire belt in Northern Ontario. On Tuesday night the fire was raging close to the town, ten tons of dynamite was removed from a powder magazine and buried in the West Cobalt River, 10 miles east of Cobalt, on the N.W.R. Railway, reported as having been wiped out.

Only 100 acres of bush have occurred in Cobalt and Dore. One mill, four miles out, and a couple of shacks were destroyed at Cobalt. Reports have been grossly exaggerated. All is quiet this morning.

**British Columbia Post Office.**—London, July 3.—The Post Mail Committee states that Asquith has offered the post laureate to Dr. Robert Borden, who will very probably accept it. Borden, 52 years old, was formerly a medical practitioner and a distinguished scholar, highly esteemed by brother posts. His works include eight poetic plays.

### THREE KILLED WHEN AUTOMOBILE CRASHES.

St. John, N.B., July 3.—D. M. Summers, the two children and her mother, Mrs. Alice Drew, are dead as a result of the overturning of their automobile last night. The machine skidded and rolled down a three-foot embankment into a ditch, where it was severely injured. The victims' necks were broken.

### NEW MARKET JULY MEET.

**Exeter Stale Won By W. Clarke's "Spartan."**

London, July 3.—At the New Exeter July meeting today the Exeter whites (Cannibals) were won by W. Clarke's "Spartans" 20 to 1. Miss Tynan, Mrs. E. H. Hill, and Mr. P. Whitney's "Sandman" 20 to 1. The Princess of Wales, states, was won by Major Lester's "Lancehets" by Special—Chestnut Sunday, 20 to 4. 1. Lord Bessborough, Captain J. D. Detherschild's "Fairy Foot," 20 to 1, third.

### ICE PLANTS OPERATED BY BOILY OF HEALT

Seven New Plants in Cincinnati, Sealed by City Law Today. Manufacturing to Win Back to Re-duce Suffering From Heat.

Cincinnati, Ohio, July 3.—Never non-union ice plants, sealed by order of Mayor Hines, were being operated by the Boley brothers, who, in an effort to relieve the suffering caused by the strike of engineers, bakers, drivers and helpers.

A large cooling machinery of the different plants was in charge of striking engineers and drivers, who were officials under an agreement made with the mayor. It was expected that similar strikes would be turned out tonight or tomorrow and that it will be put to the public. It is not the intention of the officials to demand that any one can obtain it by applying at the platform of the ice company or in the city.

While the ice manufacturers delayed the action of the city, they had taken no steps early today to gain possession of the plants.

**Lord Bessborough.**—Lord Bessborough, last year, earned \$457,561. The last year, \$467,931.76.

## MISREPRESENT CONDITIONS TO SKILLED LABOR

Minister of Labor in Winnipeg Hears Protest Against Immigration of Artisans.

### ARE BROUGHT TO CANADA UNDER FALSE PRETENSES

**Hon. T. W. Crothers Says Labor Conditions Throughout Country Are Good**

Winnipeg, Man., July 3.—On the whole labor conditions are good throughout Canada at the present time, says T. W. Crothers, minister of labor, who was in the city this morning, accompanied by Mrs. Crothers and S. Pringle. The latter is the president of the delegation sent into the labor troubles of Vancouver Island.

A large delegation from the British Columbia council, headed by R. A. Figg, was with Mr. Crothers shortly before his arrival. One of the most pressing questions of the delegation was that dealing with the regulation of the immigration rules into the country, to the point that what the labor men objected to was the bringing out, at the behest of eastern manufacturers, of hundreds of thousands of foreign laborers.

In reply to the delegation's demands, the minister said the government would be glad to encourage any foreign laborers to immigrate to Canada, but sought advice on labor laws.

### British Members to Visit Canada.

London, July 3.—Following are the members of the British House who will visit Canada, en route to Australia and Japan. Lord Lovat, president of the P.C.P., under secretary of state for the colonies; Sir H. St. L. B. Balfour, Thomas Lough, Sir E. Hildred, Sir Arthur Sherwill, Sir Arthur Priestley, Donald McMaster, Hamon Crosswood, Captain J. P. W. Crooks, Sir Stephen Cawell and T. W. Black.

### BIG CANAL MAY NOT BE READY FOR FIVE YEARS

**German Engineers Doubt Permanency of Big Ditch—Culverbra Landslides**

London, July 3.—Experts sent to Panama by a leading German steamship line, who accompanied the delegates, have reported, it is learned, that, in their opinion, no large canal going through the Isthmus will be able to pass to each end within five years at least.

They base their opinion on the great number of hard slides in the "Sulphur cut," which have been on such a scale recently that the German experts are afraid to say that the work will be done in time. It is probable, the report says, that next January, if not sooner, several experts from the United States will be sent down to the United States government. Indeed, it is said, the cut is deep enough to allow small vessels to pass through, and apparently to assure of permanence.

Moreover, the engineers are said to think that the canal will be so narrow that there will be some erosion and unless proper preparations are made it will cause the slides to block the cut.

It is generally believed that the shipping people, as well as the underwriters on the side of the Atlantic, are now quite certain about the Panama route as were some time ago. Some members of the Isthmus have had the same opinion, but the experts and themselves, which may endanger the stability of the lock gates.

Generally speaking, the shipping people, as well as the underwriters on the side of the Atlantic, are now quite certain about the Panama route as were some time ago. Some members of the Isthmus have had the same opinion, but the experts and themselves, which may endanger the stability of the lock gates.

### THREE SUFFRAGETTES ARE RE-ARRESTED

**Hunger Strikers Will Be Permitted to Hunger Strike Some More...**

London, July 3.—The police arrested three of the officials of the Women's Social and Political Union, the militant suffragette organization, who remained locked up on the 21st, owing to illness, the result of their "hunger strike" in jail.

Miss Emily Hobson, Mrs. Rachel Barrett and Miss Harriet Kerr. They had been recuperating at a watering place.

Miss Hobson, a militant suffragette who was released on license on the same day as her fellow prisoners, two weeks ago, was again released from jail today. She had again made friends with the "hunger strike" strikers.

# Dr. PRICE'S CREAM BAKING POWDER

**Pure—Wholesome—Reliable—Indispensable**

Its fame is world-wide. Its superiority unquestioned. Its use is a protection against alum food. In buying baking powder examine the label carefully and be sure the powder is made from cream of tartar. Other kinds do not make the food healthful.

## BUILD YOUR HOME IN Kennedale

Home Builders:—

Kennedale advantages as a home site are far greater than any subdivision in the city. Kennedale is only six blocks from car line now in operation. Less than ten minutes' walk from post office, stores, three large hotels, banks, etc. Large manufacturing plants now in operation on the property.

Kennedale is inside the city limits, convenient to electric light, phones, etc. Kennedale has nearly four miles of graded streets, and we will at once commence the construction of nearly two miles of sidewalk, also a large brick block for hotel and store purposes.

Nearly forty families have built their homes within the last sixty days and are now residents of Kennedale.

All lots 33 x 123 or larger.

Prices \$300.00 per lot and up.

Terms only 1-4 cash, balance 4, 8, 12 and 16 months.

Let our salesmen show you Kennedale before you buy elsewhere. Our automobiles are at your service free.

## BEN ARA WINS ALBERTA DERBY :: SAM SAVAGE IN A MERRY MOOD

### BEN ARA, EDMONTON HORSE WINS ALBERTA DERBY IN 149 1-4

J. C. C. BRENNER'S FINE LOOKING CHESTNUT WINS FEATURE RACE AT CALGARY MEET—EDMONTON HORSES HAD FIELD DAY—SIMPLY CALLS A WINNER—JUDGE THREATENS NEWSPAPER MAN

#### RECORD OF THE ALBERTA DERBY

1905—The Bishop, R. F. BEVAN	1.02 1-2
1906—Chestnut, H. H. G. GOLDEN	1.36 1-2
1907—Devereux, D. LAD. E. MC	1.02 1-2
1908—Devereux, D. LAD. MCALPIN	1.47 1-2
1909—Devereux, R. E. EXHAM	1.47 1-2
1910—Devereux, R. E. EXHAM	1.40 1-2
1911—Wheat Bowman, Wheat	1.54
1912—Musical, Gayle Nibbs	1.48
1913—Ben Ara, J. C. C. BRENNER, EDMONTON	1.49 1-4

Spotted to the Bulletin.

Calgary, July 3.—Ben Ara had a regular field day at the fair yesterday. Ben Ara, a fine looking chestnut, won the Alberta Derby in 149 1-4, one-fifth of a mile, in 2:25.1. The race was won by Quaker Boy, second; Sirloin Lowman, third. Time—1:49 1-4.

**SIMPLY CALLS A WINNER**

J. C. C. BRENNER, owner of Ben Ara, a 149 1-4.

Ben Ara, won; Lady Renaissance, second; Prince Galilee, third. Time—1:47 2-4.

**THE HORSES** were, in order: Sirloin Lowman, third; Time—1:49 1-4.

**SIMPLY CALLS A WINNER**—second; Le Fior, third. Time—1:52.

**JACK DILLON FLOORED**  
MCKINNON 11 TIMES

By Bulletin Leased Wire.

Indianapolis, Ind., July 3.—Jack Dillon, of Indianapolis, claimant of the middleweight championship, today knocked out Jim McInnon, of the ten-round bout at the American Association Park. It was Dillon's first victory in 11 bouts. Dillon, 21, had eleven times during the fight, times in the sixth, eighth and ninth rounds, to twice the round and five times in twelve. He came back gamely after each knockdown but was no match for the local man.

McInnon, who had sent him down, he tried to rise but referee Tommy Dillon helped him to his corner.

**CONCANNON AWAY TO A GOOD START**

Millers' New Southpaw Outpitched Frink and Won His First Game 5-3

By Bulletin Leased Wire.

Moore, July 3.—Manager Streeter and his boys were outpitched yesterday morning but won a 5-3 in a good game. Fifteen hundred fans turned out to greet Lefty Concannon, Millers' new southpaw, who had been a star in the minor leagues.

Concannon, a 21-year-old, walked into the room, while the men, who had a way of making themselves at home, were surprised by the ex-Portland. He allowed 12 hits, most of which were home runs, but held his own with nine well scattered and thinned up with men on the sacks. Both pitchers had a hard time, but Concannon, walking one man, while Conannon issued free transportation to ten fans, was the better.

Concannon, who had a game both players suffered a little fatigue.

The thrower, who had to score when a couple of singles and a base on balls netted him a run, in the fourth, Frink was pitching with a vengeance. He had to hold his delivery up to the sixth, when the Millers used the score.

Concannon, of the game both teams started to hit hard but the local boys Frink for extra bases and won out, getting 10 runs to the eight. Calgary made a big effort in the ninth to pull the game out of the fire, but Concannon, who had been a star in the minor leagues, was the better.

Score: New York, .000 100 000 4—5; Philadelphia, .000 200 000 0—8 1.

Batteries: Demaree, Fronze and Meyers; Alexander and Killdeer.

Concannon and Moore; Frink and Harden; Stach, Wagner and Miller.

**MANY CHAMPIONS ARE ENTERED IN TOURNEY**

Lafayette, France, July 2.—The first round of the amateur golf championship of France began here this morning. Among the entries were English, French and Belgian champions: Edward Blackwell, the British player, made the best amateur record, 72, and was the only one to hold his own with the professionals.

Score: Score: .000 100 000 4—5; Philadelphia, .000 200 000 0—8 1.

Batteries: Demaree, Fronze and Meyers; Alexander and Killdeer.

Concannon and Moore; Frink and Harden; Stach, Wagner and Miller.

**PRETTY ACTING HORSE**

The Alberta Derby was the big event of the day at the fair, held from the Canadian Alpine track, and this classic event in the fair. He was never beaten after the first race, and the last, which he won, he did not win in winning. The victor was one of the prettiest acting horses seen during the year.

Joe, the chestnut stallion, from Denver, Colo., was behind both of the men in the big horse race event. In the first race, Joe and Lester, who beat Harry T., and won the 2:17 trot for the Merchant purse of \$2,000 by capturing the first three, and the last, after coming in third in the first; in the second race, the 2:49 pace, he drove the game little chestnut gelding, Red Rock, in time to win.

#### FEDERAL JUDGE DENIES GOVERNMENT'S MOTION

Chicago, July 3.—The government's motion for a writ of habeas corpus to bring James J. Johnson to trial for his trial for the 1910 mail robbery was denied by Federal Judge Carpenter here yesterday.

Johnson, charged with white slavery in transforming Eddie Schreiber from Milwaukee to a slave in the United States, was convicted in bringing the defendant to trial.

Judge Carpenter stated that no court does not warrant forcing a trial merely because a defendant has the jurisdiction of the court.
